THE EFFECTIVENESS OF SIMULATION-BASED TRAINING FOR MANUAL SMALL-INCISION CATARACT SURGERY

Jeff Pettey, MD, and Neda Shamie, MD

Acts of Compassion

The March issue of *CRST* highlights what can happen when a surgeon's skill and compassion converge. Guest moderator Gary Wörtz, MD, is joined by fellow contributors Lance Kugler, MD, and P. Dee G. Stephenson, MD, FACS, ABES, FSEE, to discuss their articles on accessing the compassionate use pathway for a colleague, providing vision correction to individuals who are unable to use their arms or hands to handle eyeglasses or contact lenses, and working with Lions Clubs to focus on eye care in the community, respectively.
